

College of Engineering & Computer Science
HONORS CO-OP INTERNSHIP PROGRAM
California State University, Northridge

*Interested in recruiting top, entry-level
engineers and computer scientists?*

Become an Honors Co-Op Sponsor!

Honors Co-Op matches the University's most promising engineering and computer science students with jobs in industry while they concurrently complete their upper division coursework for a bachelor's degree. The year-long program is a very important part of the total educational experience for these students.

Established in direct response to industry requests for technical apprentices, the program is designed to ensure that companies receive a high quality work product for their investment. Participation is strictly limited to honors students. Applicants must have completed all lower division engineering or computer science courses, and have a minimum 3.0 overall GPA.

The dynamic combination—significant work experience and good grades—gives newly trained engineers and computer scientists a strong foundation from which to begin their careers. To date, more than half of the Honors Co-Op students ultimately accepted permanent positions with sponsoring organizations.

Honors Co-Op courses are the only academic internships presently available in the College of Engineering & Computer Science. For more information, reference the Academic Internship Policy (cf. pp. 46-47 in the CSUN 2000-2002 Catalog). Sponsorship starts at \$3,000.

Sign up by March '01 for the 2001/2002 Program:

Company Name: _____
Address: _____
City: _____ Zip Code: _____
Contact Name: _____
Title: _____
Telephone: _____ Fax: _____
Email: _____
